EDUCATION

IUT Montpellier-Sète
DUT, Computer Science & Management
(sept. 2020 - juin 2022)
Higher National Diploma

Polytech Montpellier
Master, Computer Science & Management
(sept. 2023 - Présent)

PROJECTS

Algèbre
Relational algebra website
(avr. 2023 - mai 2023)

This is a website designed with the purpose of simplifying relational algebra queries. Equipped with advanced features, this site enables users to test, save, and refine their relational algebra skills while providing stimulating practical exercises.

Relational algebra, Website, Algorithms

ERP/CRM
Enterprise Resource Planning
(juil. 2021 - Présent)

I am currently engaged in an ambitious project that is progressing incrementally alongside my studies. Its goal is to provide a comprehensive web solution for managing small businesses and sole proprietorships. This project involves an integrated management software interconnected with a customer relationship management tool.
